

STEELHEAD TROUT

THINK **COLD WATER TROUT**

Tropical has partnered with **Cold Water Fisheries** to bring you a fresh supply of Canada's finest Steelhead Trout. **Cold Water Steelhead Trout** is farmed in the pristine waters off Manitoulin Island, Cape Breton Island and Newfoundland, Canada.

QUALITY SINCE 1987

The cool, oxygen-rich waters surrounding the Islands provide a healthy growing environment for trout cultivation. These pristine habitats, combined with the proprietary feed formulated by reputable manufacturers result in a fish with unparalleled flavor, firm texture and bright flesh color.

Cold Water Steelhead Trout is farmed in an environment free of chemicals, antibiotics or GMOs. To ensure maximum freshness, each **Cold Water Steelhead Trout** is harvested to order and immediately chilled, processed and shipped – allowing us to maintain excellent quality characteristics in every fish.

Free of chemicals,
antibiotics or GMOs.
